There once
lived an acorn
far far away.
Very far!

He lived in
acorn world.

In acorn world
+ there was a little
virus that spread.

soon it cover-
ed the whole
thing.

Then it exploded.

The acorn flew.

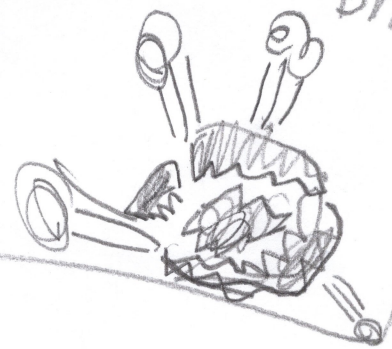

soon, it
hit the
moon.

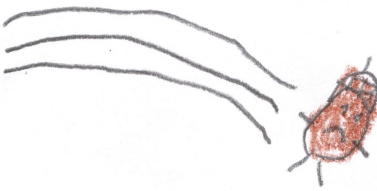

It cracked.

Then it broke.

Poor acorn got
flung again.

It hit Earth.

BOOM!

The acorn was indestructible so it wasn't hurt!

He landed in a park. Everybody stared at him.

He was huge compared to the people.

Then he kicked and screamed!

He turned into a monster!

It's because chilly air keeps monster virus away but it was summer!

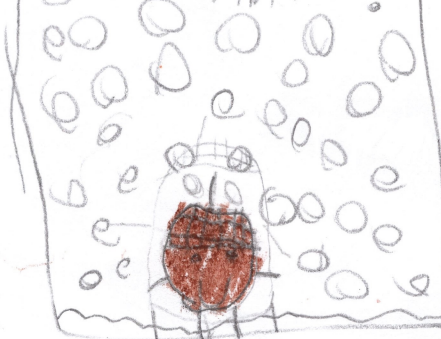

Until every thing was gone! Gight belly!

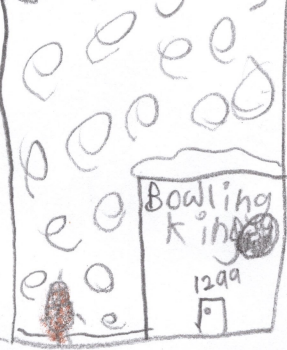

He became a giant monster

At the last second it was winter!

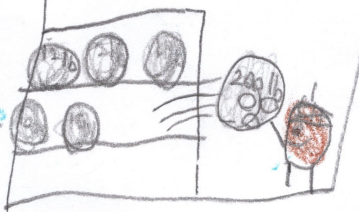

He found a bowling ally.

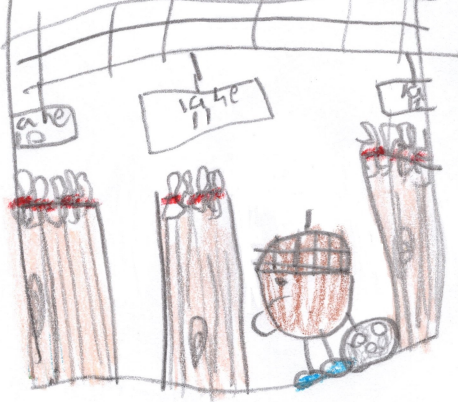

He went in and asked for his size.

He got his bowling ball.

He went to lane 11.

He knocked them all out!

Soon he had 200 points!

Wow!

He won a big stuffed bear
